React, C#, MS SQL Server, ASP .NET, REST, Dapper, JavaScript, jQuery, Sass, CSS, HTML, Bootstrap, Git, GitHub, Photoshop, Trello, Notion, Microsoft Office Suite

WORK EXPERIENCE

Full Stack Web Developer

July 2019 – Aug 2020

Nashville Software School

- Build CRUD applications using React, Firebase API for authentication and storage and React Routing
- Created REST API with C# and .NET frameworks and built React front-end application
- Worked with and implemented external APIs into projects & emphasized DRY, modular, and reusable code components
- Created wireframes and entity relationship diagrams in planning stages
- Test and debug code using React or Chrome developer tool

Instructional Designer

Oct 2019 – May 2020

naviHealth

- Present Build and deploy courses, programs, and tests using the LMS and other online course authoring
- Proficient in Articulate Storyline and Rise, which are e-learning authoring tools that provides an improved user interface and interactive learning elements
- Develop the training program including lesson plans, e-learning modules, and reference documentation for several lines of business and clients
- Meet with key-stakeholders and subject matter experts (SMEs) to discover need for training materials in person and virtually
- Research training opportunities with the team, including stakeholders and SMEs
- Uses project management skills to provide a detailed account of work required to complete the project and the deliverables to be produced

Corporate Trainer / Instructional Designer

May 2018 – Oct 2019

Advance Financial

- Planned, organized, and developed training materials that met specific needs for new hire orientation, continued learning, and new manager training
- Worked closely with instructional designer and learning management systems to design e-learning assessments and modules for new hires to that adhered to compliance and company standards

- Conducted classroom and field training to internal partners.
- Collaborated with management to identify learning objectives, content development, and delivery of proposed training for internal employees
- Used Articulate 360, Vyond, and PowerPoint to create training materials for an employee mentoring program for newly promoted leaders

Instructor/Trainer

June 2014- May 2018

Metro Nashville Public Schools

- Trained teachers how to make lesson plans and assessments that exceeded state standards and expectations while also tracking students' progress throughout the year
- Taught 7-12 grade students, but mostly high school students in English, Creative & Technical Writing
- Used data to change my curriculum based on item analysis on assessments to reveal where students struggled the most on a particular skill
- Conducted monthly student evaluations to provide feedback on strengths and weaknesses in order to improve my teaching but also to improve students knowledge about a particular skill
