Tech Stack

C#, React, Microsoft SQL Server, .Net Core, Dapper, Postman, JSX, JavaScript, JSON, jQuery, Firebase, Git, GitHub, Bootstrap 4, HTML, CSS, Sass, Webpack, Visual Studio/Code, Adobe XD, InVision

Projects

Back-End Capstone

PIGUE is a React App using C#, MS SQL Server, .Net Core, Dapper, and JavaScript. The main core functionality allows a single-user (Coach) to manage and add plays, players, and formations to the application. Inspired by my days as QB1 at Hunters Lane High School named after the head coach and offensive play caller Mr. Jerry (Coach) Pigue.

www.coachpiguet.com (Not Deployed)

Front-End Capstone

My-dashbook is a React App using JavaScript, Firebase, and Facebook Developer SDK. The main core functionality allows users to create, delete and update life events with the ability to upload a photo about the event. A user can share their event on Facebook in real time.

Inspired by the poem "The Dash" written by Linda Eillis
